THE PRODUCTLIFE GROUP DIFFERENCE

INTEGRATED COMPETENCY FRAMEWORK

A framework that ensures a comprehensive approach to solving clients' business issues.

BEST-OF-BREED, COLLABORATIVE-PARTNER NETWORK

A PLG model that ensures that each client organisation has an integrated support model.

BLENDED, EXPERT TEAMS APPLYING PROPRIETARY TOOLS

A tool kit combination of scientific, operational, and strategic expertise and technologies that support key processes that produce sustainable results.

FLEXIBLE AND PROVEN DELIVERY

An integrated suite of global service-delivery options and models to help organisations manage cost, balance resources, and optimise processes.

INFORMATION-CENTRIC MODELS

Helping clients manage product information as an enterprise asset across regulatory functions, processes, and geographies.

RESULTS BASED

A comprehensive services and outsourcing portfolio that delivers specified business outcomes, cost savings, and efficiency gains.

HERITAGE

Two decades of providing trusted services for the global life sciences industries.

LOCATION

Headquarters in Paris; deep roots in national European markets; and operations worldwide.
